

**SCIENTIFIC BULLETIN OF
“Politehnica” University of Timișoara, Romania
Transactions on HYDROTEHNICS**

CONTENT

Vol. 55 (69), 2010, No.2, ISSN 1224-6042

<i>Campan G., Evaluation of watering uniformity in operating conditions for center pivot irrigation systems</i>	<i>3</i>
<i>Staniloiu C., Achim C., Borbely B., Murariu M., Reliability of small waste water treatment plan.....</i>	<i>9</i>
<i>Florescu C., Podoleanu C.E., Optimization of the open fast filters exploitation from a surface drinking water station</i>	<i>15</i>
<i>Podoleanu C.E., Optimization of the longitudinal horizontal settling tanks exploitation within a drinking surface water stations.....</i>	<i>21</i>
<i>Man T.E., Retezan A., Vlaicu I., Vanhove Y., Djelal-Dantec C., Dimitriu M., Vertan G., Regional Issues in Water Supply, Sewage Pumping and Drainage</i>	<i>25</i>
<i>Bociort L., G. Popa Gh., Popescu A., Designing Decision Support Systems for Flood Emergency in the Timis-Bega Basin</i>	<i>32</i>
<i>Preluscek E., Gîrbaciu C., Gîrbaciu I., Thermohaline Circulation- Its possible consequences upon discontinuation</i>	<i>37</i>
<i>Stănescu M., Constantin A., Bucur C., Stănescu A., Roșu L., Experimental Stand for the Study of Unsteady Water Flow through Pipelines and Pipe Networks.....</i>	<i>41</i>
<i>Orlescu M. , Costescu I.A., Possibilities to use renewable energies for land improvement arrangements and farms</i>	<i>47</i>
<i>Carabet A., Badaluta Minda C., The quantitative and qualitative balance of the water from Rosia Montana area.....</i>	<i>53</i>
<i>Dascalescu N., Serban N., Manghiuc A., The Reservoir for snow-drift from Poiana Brașov</i>	<i>57</i>
<i>Man T. E., Ienci I.C, Artificial lakes:Problems and solutions</i>	<i>61</i>
<i>Pfann O., Cretu G., Economic crisis of Romania, new chance to relate pollution of surface water to contaminator</i>	<i>66</i>
<i>Cornea T. M., Dima M., Theoretical aspects of biological processes of anaerobic fermentation and the production of biogas as a renewable energy source.....</i>	<i>69</i>
<i>Butisca A.I., Man T. E., Cretu G., Badaluta Minda C., Simulation of flooding in basin of Var river using Mike She programme.....</i>	<i>73</i>
<i>Parcalab L., Post- ecologyzation disasters- Case of Rusca Montana and Ruschita localities.....</i>	<i>81</i>
<i>Pogany A., A special technology to increase the bearing capacity of soil by deep injection</i>	<i>84</i>

<i>Dumitran M.</i> , Ecological risk assessment and health risk of pollution on the river section Bahlui Iasi.....	87
<i>Dumitran M.</i> , Water resources.....	93
<i>Dumitrașcu M.F.</i> , Methods for drought and floods forecast in Jiu catchment	97
<i>Beilicci R.F., Beilicci E.</i> , Examples of application of iterative methods - Steady-state groundwater flow system (Laplace's equation)	103
<i>Mirel I., Retezan R.</i> , Some considerations on the use of small diameter PVC pipes for drainage collectors on populated hearth centers	107
<i>Jura C., Brata S., Jura D.</i> , Sizing of technical networks of urban utilities systems	110
<i>Giorgi N., Giorgi A.</i> , Study on the influence on water quality due to the operating landfill Targu Jiu.....	115
<i>Timofti D.A. , Dima M.</i> , Environmental risk evaluation generated by extreme natural phenomena.....	119
<i>Racelescu R., Grozăvescu M.</i> , Description of the dynamic comparison of costs for technical alternatives of a hydraulic engineering project.....	123
<i>Zaharia M., Popa Gh.</i> , Contributions to the determination of flooding levels using DUFLOW program for the river Mures in Arad	129
<i>Baliga D., Vișescu M., Ștefanescu C.</i> , Natural attenuation – a method for aquifers rehabilitation.....	133
<i>Nitescu C.</i> , Global Food Crisis – effects, causes, remedies.....	137
<i>Doltu C.</i> , The Economical Risk Evaluation for a Municipal Waste Landfill from where the Heavy Metals are Drained into the Surface Water	142
<i>Doltu C.</i> , The Morphological Evolution and Sediment Transport in the River Bed Barlad Following to the Effects of Human Activities.....	147
<i>Pisculidis G. Biali G.</i> , Researches regarding the flood waves attenuation through the Taga Marea accumulation, Fizes Mijlociu hydrographical basin, Cluj county	152
<i>Bakos M.V.</i> , Aquifer characteristics influence in transport process	160
<i>Man T. E., Bleneși-Dima A.</i> , Tehnical solutions about how to use the geosynthetics in drainage systems.....	164
