

Instructions for the preparation of the papers to be accepted and published in the Scientific Bulletin of the Politehnica University of Timsoara, Transactions on Hydrotechnics

0First Author¹

Second Author²

Abstract: These instructions are used in the present for papers publishing in the Scientific Bulletin of Politehnica University of Timisoara, Transactions on Hydrotechnics. The abstract is a narrative part containing the description of methods, the solutions proposed and also the experimental results and should not exceed 100 words. It is not admitted bibliographic references in the abstract. The paper should comprise no more than 8 pages (even number) and should be sent by e-mail (ioan.sumalan@upt.ro) in DOC format.

Keywords: keyword 1, keyword 2, (4-6 most relevant keywords)

1. INTRODUCTION

The author must prepare the paper in the A4 (metric) format (29,7x21 cm). The required format for pages, columns, tables and figures are presented in the next section

2. EDITING INSTRUCTIONS

In formatting your paper set Top and Bottom margins to 5.5 cm on first page and 1.78 cm for the rest, Left and Right margins to 2.54 cm. Use two equal columns of 7.71 cm width and 0.5 cm the space between columns and Tab stop position at 0.63 cm. Use Times New Roman font type and typefaces presented in the below table

Font size	Use in section(s)
8	References, footnotes, text subscript and superscript
9	Abstract section (Bold) , authors affiliation, caption for tables and figures
10	Main text, equations, SECTION TITLES, page and equations numbers
12	Author name
18	Paper title

Justify both left and right columns. Use a single space in the main text section, between sections and between tables and figures to adjust the column length. on the last page of the paper try to adjust the length of both columns so they are the same.

3. FIGURES AND TABLES

The figures and the tables will be insert in main text and center aligned. Please avoid to place figures before the first mention of the figure in the text. Use the abbreviation "Figure 1" even at the beginning of the sentence. If necessary for tables and figures use at their place only a single column. It is recommended to avoid the insertion of scanned graphic objects.

4. EQUATIONS

Number equations consecutively with equation numbers in parentheses flush with the right margins like (1), (2). Use a single space before and after equation. Also, if necessary use at their place only a single column. Be sure that the symbols in your equation have been defined before the equation appears or immediately following.

5. OTHER RECOMMENDATIONS

Use the International system of units (ME). Please explain the abbreviations and acronyms. Please avoid a such kind of abbreviations in the paper title. It's recommended to avoid a section type like ACKNOWLEDGEMENTS or THANKS.

REFERENCES

Use the following style for the references used in the paper. It's recommended to limit the number of references at a reasonable one.
