JWRHE cordially invites you to review a paper (ID: JWRHE10022)

To: belicci\_erika@yahoo.com

Dear Prof. Dr. Erika Beata Maria,

We'd like to inform you that the assistant of the JWRHE Editorial Board has selected a paper which is matched with your research area for you to review.

Here we **attach the paper** for you to review and a review form to fill in. After reviewing the paper, you need to write down your comments in the Review Form and rate the paper (A is the highest level).

Your comments are an invaluable aid to the author(s) to help in improving the overall technical quality, utility, and readability of the material. These comments are also necessary to maintain the quality of the articles that are published in the journal. Particular attention should be given to details that guide possible revisions, or that clearly explain reasons for rejection. Please summarize comments that appear on the manuscript to help the author(s) focus on the major issues you have raised in your review.

We would be most grateful if you could review it and send back your review comments **within 2 weeks**.

Thank you in anticipation for your support and look forward to hearing from you.

PS: If you are busy at this time or the paper topic is out of your specialized area, you are also welcome to recommend experts to help with it.

Please feel free to contact us if there is any question or problem.

Best regards,

Editorial assistant Wendy
